

**Overseas Oil Services**

**2023**

# **COMPANY PROFILE**

OOS is an Oil services company established in 2012, with extensive expertise in Libya backed by more than 10 years of experience in supplying and providing various services to the oil and gas companies of sectors such as the Oil & Gas, Energy, Utilities, Civil, Infrastructure and Buildings

# Message from the CEO & General Manager

**Dear Clients and Business Partners,**

Overseas Oil Services has been in operation for over 10 years. We utilize some of the best engineers whose qualifications include outstanding excellence coupled with long practical experience in the field of engineering, construction and specialized erection activities, especially in the oil industry and manpower supply.

We have managed to complete a vast array of important projects in our history from specialized fabrication, erection and maintenance of equipment and pipework.

OOS has significantly strengthened its status in. Our primary goal is to satisfy our customers, putting a strong emphasis on the quality of our services.

Our Quality Management System is certified and complies with the requirements of ISO 9001:2015. We are also the holders of relevant certificates ISO Environmental Management System ISO 14001:2015 and Occupational Health and Safety Management System ISO 45001:2018).

We consistently fulfil our vision - to be a leader of the market in the field of engineering, construction, rehabilitation and maintenance of distribution heavy duty installations in the oil industry sectors. We continue to develop and offer further above standard solutions and procedures for our customers.

We are glad to serve you as "Your Reliable Partner In Libya

**Abduljawad Mohammed**

## Background

### OOS Presentation

Civil works

Prefabricated buildings

Industrial & process buildings

life camp modules

Manpower supply

Procurement & maintenance

Concrete mix supply

**OOS** is a Libyan company created in 2012 and specialized in the integration of many products and skills for Engineering, procurement and construction of Industrial sites, permanent or temporary camps and other civil works, such as:

- Process buildings, factory buildings, workshops and warehouses.
- Civil Works
- Permanent Camp Facilities
- Temporaries and mobile camps
- Individual housing and Family accommodations
- Individual and shared accommodations for large projects requiring special care in the design and/or budgeting.

Our experience and expertise in the remote Oil Field and Military Camp type constructions, Civil Works and Industrial Steel structures is wide. We are equipped in Libya for the civil works of Oil & Gas Projects.

OOS has acquired a good part of the needed technical resources such as Concrete batch plants, Cranes, Loaders, transport means, camps, Electric generators, form works etc. And has invested in the recruitment & training of local craftsmen, supervisors and site teams together with the Design and procurement staff in main office and in affiliates.

Our Knowledge about the Oil Field-related environment is very large as all shareholders and company's founders acquired a good part of their professional experience in this domain

**OOS** has supplied and built camps, steel buildings, workshops, Industrial & process Buildings and Civil Works primarily on turnkey basis for Oil Field companies and Military camps

## Services Offered

## Introduction

### Overseas Oil Services

(OOS) was founded by a group of individuals at Libya where there is great abundance of oil and opportunities.

Furthermore, it commits itself to becoming a company with strong competitiveness and to become one of the major suppliers and distributors of manpower, construction EPC and services within the oil and gas industry. It engages in wide range of activities related to oil and natural gas, including exploration, development and production.

### Overseas Oil Services

(OOS) under the guidance of the concept of quality over quantity, provides well trained and experienced personnel's ensuring dedication and productivity on their field of expertise.

### Overseas Oil Services

(OOS) is committed to accelerating the transformation of economic growth, improving the self-innovation capacity, establishing long term relationships with its clients and creating a harmonious environment, in order to transform itself to a company with strong competitiveness which in return gives both employee and client satisfaction to its fullest state.

## ABOUT US

### Company Value

To provide a Wide Range of Services at Competitive Prices in strict compliance with the high standards and rules of the EPC Oil & Gas Industry

### Future Plan

It is our intent to implement economies of scope to our business, as such, increasing locally the adding value of some products and continue developing

## Commitment

Our commitment is borne out of the experience gained since our inception.

We are cognizant of the future demands by our clients for only the highest standard of quality and a potentially higher

Our Vision and Mission Statements espoused from the experience we gained since inception and from our commitment to excel. We invest and commit to our client's demands and execute all our projects with foresight, precision and integrity.

### *Vision Statement*

Our vision is to be the Company of preferred choice in Libya by 2027 for **Engineering, Procurement and Construction (EPC)** solutions and proven technologies in the fields of; Oil and Gas, services supplying, Mining and Civil Construction.

### *Mission Statement*

Our mission is to provide timely and cost-effective solutions to our clients while maintaining a relentless focus on safety and uncompromising quality standards.

## Certifications

Successful companies are driven to deliver quality - from the way they operate, to the customer service standards they establish and the products they deliver. This is a strategic vision for continuous change to improve brand equity and image and ensure you are better equipped to win new opportunities in an increasingly competitive global marketplace.

OOS embraces this quality standard and has attained certifications as below:

QMS ISO 9001:2015  
Quality Management System

EMS 14001:2015  
Environmental Management System

OHS&MS ISO 45001:2018

Below is a list of past completed projects

### 1. Temporary Facilities

Year 2013 EPC Project

**CLIENT: CSSI – FRANCE / OILFIELD SERVICE COMPANY**

Engineering, Procurement and Construction of the Main Base of an oilfield Service company in Libyan desert.

Engineering, Procurement and Construction of the Industrial temporary facilities

Engineering, Procurement and Construction of the Office Building Civil Works and Supply of all Water & sewage Networks

Civil Works and Supply of all Electric Network Supply and construction of the project Fence Works

Civil Works and erection of the water storage and sewage storage Facilities

Civil Works and erection of the Electric generating facilities

Engineering, Procurement and Construction of the Internal roads, Sport facilities & Land Escape

## 2. YEAR 2013 EPC TEMPORARY FACILITIES

SCHLUMBERGER Office Buildings – 103 AL-WAHAT

**CLIENT CSSI FRANCE / SCHLUMBERGER**

Engineering, Procurement and Construction of the two large Steel Structure, Prefabricated Buildings including:

Civil Works Electromechanical Works, HVAC System

## 2. YEAR 2014 EPC TEMPORARY FACILITIES

### CLIENT CSSI FRANCE / OILFIELD SERVICE COMPANY 103 AL-WAHAT LIBYA

Engineering, Procurement and Construction of the Main Base of an oilfield Service company in Libyan desert

- . Gate a Guard House /Water Storage and Water treatment plant/Open Storage area
- . Main Workshop / Main Workshop Over Head Cranes / Restaurant & Recreation Building

### 3. 2014 TEMPORARY FACILITIES

**CLIENT; ZUEITINA OIL COMPANY CONCESSION 103 AL-WAHAT LIBYA**  
Engineering, Procurement and Construction of the camp of a 103 in Libyan desert

- EPC of the office building
- Civil works and supply of all water, sewage and electrical networks
- Supply and construction of the project fence works
- Civil works and erection of the water storage and sewage storage facilities
- Civil works and erection of the electric generating facilities
- Engineering, procurement and construction of the internal roads, sport facilities and land escape

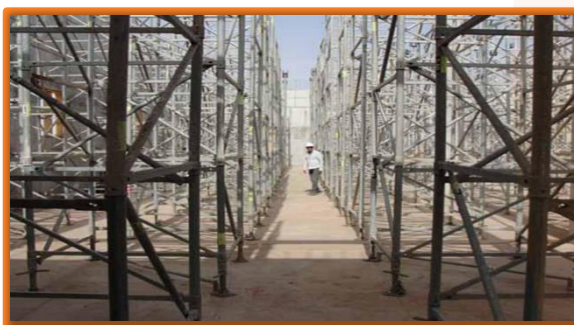

### 3. 2015 ZOC 103-A FIELD NEW RECREATION BUILDING

**CLIENT; ZUEITINA OIL COMPANY CONCESSION 103 LIBYA**  
Engineering, Procurement and Construction field new recreation building

- Civil works for all building including massive reinforced concrete works, Excavation, Backfilling and Compaction.
- Civil Works and Supply of all Water & sewage Networks
- Supply and Construction in Concrete and traditional finishing of the Control Building, The Electrical Building, The maintenance Building,

**4. YEAR 2015 /PROJECT: FABRICATION WORKSHOP - AL-WAHAT**

**CLIENT: CSSI-FRANCE / HALIBURTON**

OOS Involvement: Engineering, Procurement and construction of workshop with 2 overheadcranes with a cantilever extending outside the building allowing the overhead cranes to load and offload the supply boats.

- All material was imported from Egypt and OOS team did all the construction works on site

## 5. YEAR 2017 /PROJECT CONSTRUCTION OF CAMP SITE.

- Chadar field is located in the Sirte Basin, southeast of the city of Ajdabiya, **Client: Zallaf Libya Oil & Gas Company** temporary Facilities camp 100 men
- Installation of the buildings started by our teams ready in the area at the day that demounted container units reached to Ajdabiya, the construction site buildings consisting of 50 container units where 100 employees can stay were installed and made ready with the convenience provided by nut bolt and click-fit system. There are work offices, dormitory and dining hall, wc-shower units and rest offices at the container construction site complex.

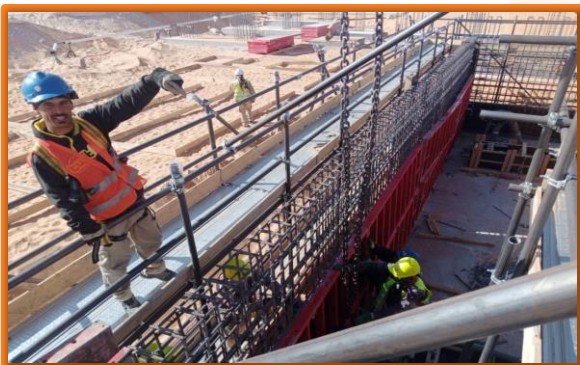

## 5. Year 2019/ South West Gas Fields Development Project

Chadar field is located in the Sirte Basin, southeast of the city of Ajdabiya,

- Client: **Taknia Libya Engineering Company**
- Site preparation and earthworks including compaction tests and materials
- reinforcing rebar including embedded plates.
- concrete works, Trenches Excavation

## 6. ZUEITINA OIL COMPANY CONCESSION 103A / SERVICES

OOS Oil Services' dynamic offering of services includes all activities needed. The scope and growth of OOS services along with our highly qualified team enables OOS to speed up schedules, lowers costs, and ensure quality for our customers.

Client: • Zueitina Oil Company Concession 103A:

Below is a list of pasts completed services.

Electrical works mostly consisting of configuration

Maintenance and repair on Highline and electrical towers

Voltage testing and instrument calibration on circuit breakers, panels, wirings

Installation of metal supports and scaffoldings for production

Removal, reinstalling and maintenance on flanges, valves and gaskets

Pipeline maintenance on gas plant site facilities

Installation of fences on site

Hand digging and excavation works for UT survey

Trailer construction

Path walks construction for the camp

Power supply and panel configuration for offices

Manpower assistance on oil field sites, mechanical wo

ZOC-103A – PRE-SHUTDOWN

ZOC-103A – PRE-SHUTDOWN sand blasting

**ZOC-103A – PRE-SHUTDOWN SPRAY PANIT MACHINE**

**ZOC-103A – PRE-SHUTDOWN blasting /FUEL TANK**

**ZOC-103A REMOVING INSULATION FROM HOT LINES**

**ZOC-103A INSTALLATION BLINDS AROUND 22C-9A**

**ZOC-103A/ INSULATION CLADDING AT F-12 HEATER**

**ZOC-103A/ INSTALLATION GATE VALVES WITH**

**ZOC-10A/ REMOVAL BAFFLE PLATES INSIDE 22C-74**

**ZOC-103A/ INSTALLATION RELIEF VALVES 24"**

**ZOC-103A INSTALLATION SLIP BLIND AT FLARE**

**ZOC-103A CHIPPING CONCRETE GAS AT FLARE**

**ZOC-103A INSULATION AND CLADDING AT F-12**

**INSULATION AND CLADDING AT F-12 HEATER**

**REPLACING A 10-INCH FIRE LINE**

**INSTALLING NEW AIR COMPRESSORS INSTRUMENT**

**ZOC-10A/ TANK PLATE SAND BLASTING**

**REPLACING ROTATING SHAFT TURBINE GENERATOR**

## Assurance

## ***Safety, Health and Environment***

We are fully committed to improving Health, safety and environmental performance across all areas of our business in accordance with ISO 14001, OHSAS 18001 and applicable legal requirements.

We shall fulfill this commitment through the following actions:

- Recognize, assess and quantify potential Health, safety and environment risks associated with our activities and introduce control measures to eliminate, substitute or reduce the risks to acceptable levels.
- Conform to national legislation and other industry best practices to which the company subscribes to;
- Allocate adequate resources and necessary competency for implementation of health, safety and environmental programs;
- Encourage consultation with and active participation of employees by continually seeking to improve the performance of health, safety and environmental management practices through periodic reviews;
- Demonstrate responsibility and accountability for health safety and environmental management practices by all persons within the company;
- Promote open communication with internal and external interested parties regarding our performance in health, safety and environment;
- Provision of appropriate instruction, procedures and communication channels. This policy shall be reviewed periodically depending on the changes in national legislation, best practices and requirements accredited to by the company

The company's management system for health, safety and the environment is implemented through a strong top management commitment for the implementation of such policy including

- Health and Safety Policy.
- Security policy

# HEALTH, SAFETY & THE ENVIRONMENT

## OVERSEAS OIL SERVICE OCCUPATIONAL HEALTH & SAFETY POLICY

### Vision

OOS will be recognized as a company which responsibly manages risks to the occupational health and safety of its workers and other interested parties.

### Commitment

The OOS Board of Directors has ultimate responsibility for occupational health and safety performance and achievement of occupational health and safety excellence. Petrofac and its business units are therefore committed to:

- conducting its business in a safe manner, consistent with its 'Horizon Zero' initiative which aims to eliminate hazards and reduce risks to prevent work related injury and ill health
- maintaining a strong leadership culture where safe behaviors are encouraged and recognized
- promoting a culture in which all workers share this commitment and take personal responsibility for occupational health and safety
- creating an environment where workers are empowered to intervene if they believe that a work activity is unsafe
- ensuring consultation and participation of our workers to achieve the desired outcome of this policy
- continual improvement of our health and safety performance and management systems
- complying with all applicable laws, regulations, relevant standards, and compliance obligations and applying OOS standards where the legislation is inadequate or non-existent
- transparency in the reporting of the Company's health and safety performance and sharing of knowledge
- setting objectives and targets for continual improvement with auditing and monitoring of performance

### Objectives

To meet this commitment at Group level, OOS will:

- Develop and maintain a systematic approach to occupational health and safety management and assurance
- implement risk management processes that identify,

evaluate and control occupational health and safety risks and opportunities

- publish regular performance reports and openly discuss occupational health and safety performance with internal and external stakeholders
- periodically review the suitability and effectiveness of this policy, our management systems, targets and objectives

Each OOS business unit will:

- identify and assess the risks to occupational health and safety as a result of business activities
- provide suitable resources for occupational health and safety
- develop and maintain occupational health and safety management systems that comply with this Policy, Group Health and Safety Standards and ISO 45001
- select and manage contractors to ensure alignment with this policy and our values
- ensure that occupational health and safety goals and standards are understood at all levels within the business unit
- measure, appraise and report on occupational health and safety performance
- provide appropriate training for all workers to enable them to carry out their work in a safe and competent manner
- ensure appropriate emergency response procedures are in place and regularly tested to minimize the impact of any incident or emergency situation
- hold appropriately empowered line management accountable for occupational health and safety performance
- include health and safety competencies and performance in appraisals
- engage with workers, clients, contractors and suppliers to continuously improve standards of occupational health and safety

### Responsibility and implementation

Prevention of harm to workers is a line responsibility that starts with the General manager and flows down through the line management structure to front line workers performing work. Every leader at OOS is accountable and responsible for proactively leading the management of risks to workers within their teams. Every OOS worker is responsible for making themselves aware of the occupational health and safety risks and opportunities in their work area and to proactively play their part in reducing these risks. All workers are encouraged and empowered to speak up if they have any occupational health and safety risks and opportunities.

## OVERSEAS OIL

### SECURITY POLICY

#### Vision

OOS will be recognized as a company that manages threats to the security of its people and assets in a responsible manner.

#### Commitment

OOS Board of Directors has ultimate responsibility to provide a safe and secure working environment and achievement of excellence in security. Overseas Oil and its business units are therefore committed to:

- Conducting its business in a secure manner, consistent with its 'Horizon Zero' initiative which aims to eliminate all incidents within the company
- Promoting a strong culture of leadership in security matters to create a secure business environment for our people and assets
- encouraging all employees to share our security commitments and take personal responsibility for protecting our people and assets
- minimizing business loss and disruption

#### Objectives

To meet this commitment at Group level Overseas will:

- develop Group security performance standards and management practices to ensure a systematic approach to security management
- monitor and assess security threats, risks to people and assets, and travel arrangements
- periodically review the suitability and effectiveness of this policy, the Group Security Performance Standards and Management Practices, our management systems, targets and objectives

Each OOS business unit will:

- ensure formal security measures and controls are in place in line with the Group Security Performance Standards, to effectively manage identified security risks and threats
- provide suitable resources to maintain security of people and assets
- ensure appropriate response procedures are in place and regularly tested to minimize the impact of any security incident or emergency
- measure, appraise and report on security performance
- provide appropriate security training to employees and actively promote security awareness
- report and investigate all incidents that have occurred due to a breach in security
- empower all our employees to refrain from actions that they consider a threat to security
- engage with clients, contractors and suppliers to deliver a high standard of security management

#### Responsibility and implementation

Management of security threats is a line responsibility that starts with the CEO & General Manager and flows down through the line management structure to front line employees performing work. Every leader at OOS is responsible for proactively leading the management of threats to security with their teams. Every Overseas Oil employee is responsible for making themselves aware of the security threats in their work area and to proactively play their part in increasing resilience to these threats. All employees are empowered to speak up if they have any security concerns.

# HEALTH, SAFETY & THE ENVIRONMENT

## HEALTH, SAFETY AND ENVIRONMENT TRAINING

The purpose of the HSE training is to describe and define the methodology, to ensure that all staff receive adequate HSE training and assessment, to perform their duties satisfactorily and to obtain the skills required for their position and to carry out the activities. Expected of them, a good behavior on safety matters and risk associated at the construction site

## EMPLOYEE INCENTIVE PROGRAM

The objectives of this HSE Incentive Scheme are;

To involve all site employees to participate in the implementation of the Project HSE Plan and Safe Work Practices.

To consider that safety is a value and not merely a priority or a just job requirement.

To affect the behavior of every individual and workgroup regarding the creation of culture where everyone shares his utmost effort to maintain a work environment:

## Quality Assurance

### Quality Right from The Start

OOS provides high end and high-quality services in a timely fashion to all clients. Our plan-to-project approach removes uncertainties around delivery and supply, while our long-standing relationships mean we always have access to project requirements on time. Over the years we have invested heavily in equipment and production facilities to help speed up delivery times on vital infrastructure projects and get work done in even the most remote locations.

We adhere to the highest levels of environmental management, ensuring our Construction facilities are good neighbors, as well as good businesses.

OOS provides high quality, general contracting & project management services that satisfy customer's needs and expectations on quality, safety, reliability & timely execution of projects. It is the intention of the company to provide high quality services at competitive prices, that are managed correctly to give total satisfaction to the customer in fulfillment of their individual needs.

To this end, OOS formulates and implements an effective quality management system, which addresses the requirements specified in ISO 9001:2015.

We enhance through:

- Quality, timely & reliable services
- Effective utilization of manpower, equipment and other resources.
- Creating an awareness with all the employees in fulfilling the customers' requirements.
- A continual program of improvement in terms of creating added value for our customers as a result of our activities.
- Ensuring customer satisfaction
- Creating an environment and philosophy conducive to meeting the customers' requirements.

## OVERSEAS OIL QUALITY POLICY

### Vision

OOS will be recognized as a company that consistently meets or exceeds our customers' expectations and responsibly manages risks to quality across all facilities that we design, construct, or operate.

### Commitment

The OOS Board of Directors has ultimate accountability for ensuring the requirements of our interested parties/ customers are understood and delivered. OOS top management is committed to:

- Understanding our customers' requirements to deliver products and services that enhance customer satisfaction and meets applicable statutory and regulatory requirements
- Ensuring OOS business delivery processes are efficient and effective
- Promoting the process approach and risk-based thinking
- Promoting a strong culture of quality management within leadership and across the organization
- Identifying and managing risks and opportunities to product and service delivery
- Learning from our own experiences and building on best practices to improve our performance
- Communicating the importance of effective quality management and of conforming to the Quality Management System requirements
- Work together across OOS to optimize value for ourselves and our customers, without compromising quality and integrity

### Objectives

To meet this commitment at Group level, OOS will:

- Establish quality objectives
- Promote information gathering and knowledge sharing across the organization by enhancing efficiency through the use of digital tools and systems
- Maximize cost efficiencies in the delivery process
- Periodically review the suitability and effectiveness of this policy, our management systems, targets, and objectives

Each OOS business unit will:

- Set quality objectives and targets and promote continual improvement to quality performance
- Ensure that our quality goals and expectations are understood at all levels to promote continual improvement
- Develop and maintain a systematic, process approach to quality management
- Engage competent resources to implement, maintain and continually improve the Quality Management System
- Proactively identify and assess risks to quality and implement effective management controls to reduce waste
- Identify, investigate, and correct quality issues, share knowledge of best practices learned through experience and take appropriate actions to prevent recurrence
- Measure, review, and report on quality performance
- Maintain open communication with our customers to ensure their satisfaction

### Responsibility and implementation

Delivering our customers' expectations is a line responsibility that starts with the General manager and flows down through the line management structure to front line employees performing work. Top management within OOS is responsible for engaging, directing, and supporting their teams to contribute to the effectiveness of the Quality Management System. Every Petrofac employee is responsible for identifying the quality related risks associated with their work and contributing to reducing these risks. All employees are empowered to speak up if they see any quality opportunity or risk that can affect the Quality Management System.
